Publications / Publicaties

- [IEA and WHO: IEA collaboration on WHO/ILO technical brief “Healthy and safe telework”, 2021](#)
 - Drs. Michelle Robertson and Kathleen Mosier represented the IEA by participating in a task force on telework and contributing to this important joint WHO/ILO effort, which resulted in a technical brief that can be accessed here <https://www.who.int/publications/i/item/9789240040977>
- [EU-OSHA:](#)
 - [Worker participation in the prevention of musculoskeletal risks at work \(March 2022\)](#)
 - Authors: Mette Jensen Stochkendahl, Peter Hasle, Anne Faber Hansen, Bibi Dige Heiberg, Wanja Öhler, Astrid Overgaard Herrig (University of Southern Denmark, Denmark), Sandrine Caroly, Sandra Poncet (University Grenoble

Alpe, France), Marina Järvis, Karin Reinhold (Tallinn University of Technology, Estonia). Reviewed by Laura Punnet (University of Massachusetts Lowell, USA) and Karen Søgaard (University of Southern Denmark, Denmark).

- Work-related musculoskeletal disorders (MSDs) negatively affect the health of millions of European workers and the productivity and costs of businesses across all sectors. Workers are key to addressing these vital concerns.
- This report proposes methods to actively involve workers in preventing MSDs. It includes practical examples and case studies from workplaces where workers participated to successfully tackle MSDs. It also presents the factors and conditions that are necessary for effective worker participation.
- The report offers organisations, including small businesses, and policy-makers advice and guidance on how to manage the risks and implement participatory MSD interventions.
- [More info](#)
- **With 2 Belgium cases based on SOBANE strategy**
 - Involving workers in planning a safe and ergonomic carpentry workshop using the SOBANE method and simulation
 - Direct participation of workers using SOBANE (screening, observation, analysis, expertise) helps to strengthen workers self-confidence and engagement in the participatory process.

- **PEROSH:**

- The PEROSH partners aim to coordinate and cooperate on European research and development efforts in occupational safety and health. The network comprises 14 Occupational Safety and Health (OSH) institutes, all playing key roles in their national affiliations to governments/authorities and health and accident insurance systems: <https://perosh.eu/about/>
