Prochaine réunion conseil d'administration BES : 27 mars 2014

Journée nationale BES : jeudi 27 mars 2014

Thema: Risicoanalyse en Ergonomie

Het programma was u in januari per mail toegestuurd.

Lidgeld 2014

In januari 2014 zal de oproep voor het lidgeld van de BES persoonlijk per email toegestuurd worden. De bijdrage voor 2014 bedraagt 50 euro (Eur Erg 150 euro).

Verkiezingen 2014: begin 2014 zoals elke 3 jaar organiseren we de verkiezing van de 10 leden voor het bestuur

Resultaten beschikbaar aan onze Algemene Ledenvergadering van 27 maart 2014

- **Commissie BREE** (European Ergonomist, <http://www.besweb.be/nl/eurerg>)
Contacteren kan via: bree@besweb.be

Activiteiten en nieuws van de Nederlandstalige vleugel van de BES

Om kennis op een interactieve manier uit te wisselen worden workshops georganiseerd rond specifieke thema's. Bedoeling is om de expertise samen te brengen en van elkaar te leren.
Meer info vind je via: <http://www.besweb.be/nl/activiteiten>

Thème : L'analyse des risques en ergonomie

Le programme vous a été envoyé par email en janvier.

Cotisation 2014

En janvier 2014, la demande de cotisation BES vous sera envoyée par email. Le montant pour 2014 est de 50 euros (Eur Erg 150 euros).

Elections 2014: début 2014, comme tous les 3 ans, auront lieu les élections des 10 membres du conseil d'administration de la BES

Résultats présentés lors de notre assemblée générale du 27 mars 2014

- **Commission BREE** (Ergonomes européens, <http://www.besweb.be/fr/eurerg>)
Pour contacter la commission bree: bree@besweb.be

Activité et nouvelles de la section francophone de la BES

La prochaine réunion du bureau francophone est prévue le 20 février 2014

Activités prévues en 2014 :

Om ergonomie bij niet-ergonomen te promoten, is de BES ook actief op studiedagen van andere organisaties:

18 maart 2014 Prenne 29 Montil Affligem

Programma en info:

Nieuwe Conferenties

SELF 2014 à la Rochelle, France, du 1 au 3 octobre 2014

Le 49e Congrès de la Société d'Ergonomie de Langue Française (SELF) aura pour thème "Ergonomie et développement pour tous". Ce congrès est organisé par le GEDER (Groupement d'Etude pour le Développement de l'Ergonomie en Réadaptation), à l'occasion des 30 ans de cette association.

14 mars 2014 Réception des propositions communications

2 mai 2014 Envoi des retours d'expertise

Les propositions de communications sont invitées à s'inscrire dans l'un des thèmes ci-dessous :

- Diversité et ergonomie tout au long de la vie
- Environnements capacitants, organisations capacitantes
- L'intervention : dynamiques de développement

[Télécharger le texte d'appel à communication](#)

- **Visite salle de contrôle SNCB à Mons:** 27 janvier 2014

- Une **visite INRS France** sera organisée fin 2014

- Un séminaire sur les « opens spaces » sera organisé le 16 mai 2014

- Visites d'entreprises avec des contraintes thermiques (froides et /ou chaudes)

. DELI XL Thuin 31 mars 2014 : 13h30 16h30

L'invitation vous a été envoyée par email.

MSD Sickness Absence in Europe – Fit for Work Infographic

MSDs are the leading cause of sickness absence in Europe, costing the economy up to €240bn annually. Fit for Work Europe has developed estimates of the effect of early intervention clinics repeating the results of the Madrid clinic across 12 EU member states where comparable data exists. These states represent only 70% of the EU workforce, but the

estimates are meant to give the EU and the national governments a flavour of the benefits that early intervention can bring to the healthcare systems, the labour markets and the economy. [Click here to download the results.](#)

Reducing Temporary Work Absence Through Early Intervention: The case of MSDs in the EU

S. Bevan, the Work Foundation, 2013

With many EU member states set to see 50% of their population diagnosed with an MSD by 2030, this report warns that this growing problem cannot be ignored and must be urgently addressed. MSDs are the leading cause of sickness absence across the EU -44 million workers have MSDs – including back pain and strains of the neck, shoulder and arms. This costs up to €240bn annually in lost productivity and sickness absence, representing up to 2% of GDP across the EU. The report calls on EU member states to coordinate action between government departments, employers and clinicians to tackle this problem and save billions while transforming the lives of those affected by such devastating conditions.

International Ergonomics Association, IEA: <http://www.iea.cc/>

Letters from the IEA

president: http://www.iea.cc/browse.php?contID=president_letter

Nomination for the 2014 IEA / Liberty Mutual Medal

The International Ergonomics Association provides the most prestigious annual Award for outstanding original research leading to the reduction or mitigation of work-related injuries and/or to the advancement of theory, understanding, and development of occupational safety research. The IEA/Liberty Mutual Award in Occupational Safety and Ergonomics is funded by Liberty Mutual, whose research Institute for Safety undertakes extensive research in this area. The Award has been made annually since 1998. The

recipient of the Award receives a US\$10,000 prize and a medal. Details on the Award can be found on the IEA website http://www.iea.cc/award/yearly_liberty.html . An independent international committee is appointed by the IEA to judge the winner from the nominated papers. This process should be completed by the end of August for the 2013 award.

The winning paper and source journal would be recognized internationally through press releases issued by the IEA. **The deadline for nominations is 31 May 2014.** Please circulate this information to your society members!

Communication in relation to nominees should be forwarded to the Chair of the IEA Awards Committee, Andrew Imada at pastpres@iea.cc .

IEA Website

If you haven't been to the IEA website lately, check out the updated design at www.iea.cc . I will be sending out the access information for societies in the near future. There are still updates in progress but most of the base information is now integrated. Thanks to the Japanese Ergonomics Society for sponsoring the costs of the updates, underlying programming, content management!
